TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript

Front-end Framework: React.js

Database Management: SQL, MongoDB

Version Control: Git/GitHub

Responsive Web Design

Problem-Solving

PROJECT IMPLEMENTATIONS

Project Title: Online E-commerce Website Clone.

Description: cloning, Redesigned and updated the user interface and functionality of an existing e-commerce website to improve user experience and increase conversions.

Achievements:

Enhanced user experience, resulting in a 20% increase in user engagement and a 15% increase in conversion rates.
Reduced website load times by optimizing code and image assets, resulting in a 30% improvement in page load speed.
Implemented responsive design principles, leading to a 25% increase in mobile traffic and a better mobile user experience.

My Role: As a front-end developer, I was responsible for implementing the innovative design using HTML5, CSS3, and React.js. Collaborated with the back-end team to integrate new features and ensure seamless user interaction.

Challenges: Overcame challenges related to cross-browser compatibility and responsive design by conducting thorough testing and utilizing best practices.

Lessons Learned: Improved my skills in front-end development and gained valuable experience in working collaboratively with a cross-functional team.

Results: The project significantly improved the website's performance and user satisfaction, leading to increased sales and positive feedback from customers.

Technologies Used: HTML5, CSS3, JavaScript, React.js, SQL
